Missouri Coalition for Community Behavioral Healthcare

The Coalition, founded in 1978, represents Missouri’s not-for-profit community mental health centers, as well as alcohol and drug use treatment agencies, affiliated community psychiatric rehabilitation service providers, and a clinical call center. Thirty-three member agencies staffed with more than 9,500 caring and capable individuals annually provide treatment and support services to approximately 250,000 people. Thirty organizations are regular members, while two are associate members. In 2011, Missouri became the first state in the nation to implement a federally approved system of community mental health center healthcare homes.

The Missouri Department of Mental Health’s Division of Behavioral Health divides Missouri into 25 service areas. (See page 51.) Each area has a community behavioral health center (CBHC) which provides psychiatric services to individuals in need. It is designated as the Division’s Administrative Agent. Administrative Agents serve as the primary entry and exit points for state mental health services and are responsible in their assigned areas for assessment and services for both adults and children and for providing follow-up services for individuals released from state-operated inpatient hospitals.

Read about our members and the varied services they provide in the following pages. All are committed to serving their communities and providing a safety net for individuals affected by mental illness or substance use.

Brent McGinty, president and CEO of the Coalition, says, “All Missourians should be thankful for the tireless work of the dedicated staff of our member agencies. Their work is essential to improving the lives of individuals and families and helping them return to work and to school, while helping them avoid hospitals, nursing homes and jails – more expensive and disruptive alternatives. We are cost effectively transforming the health and well-being of Missouri’s communities.”

Patients Served by CBHCs

- Medicaid: 39%
- Uninsured: 29%
- Medicare: 12%
- Other: 6%
- Private Insurance: 14%

Amanda Luckett Murphy Hopewell Center grew out of a 30-year history of service. In 1988, Yeatman / Union-Sarah transferred its assets to Hopewell Center under the leadership of its founder, Dr. Amanda L. Murphy. In the fall of 2009, the board of directors of Hopewell Center elected to change the name of the organization to Amanda Luckett Murphy Hopewell Center, Inc. to honor its founder and former CEO. Incorporated as a not-for-profit 501(c)(3) since 1979, ALM Hopewell Center provides comprehensive mental health services to children and adults in the metropolitan St. Louis community.

On January 1, 2010, Hopewell joined the Betty Jean Kerr People’s Health Centers (PHC) family of corporations as an organization whose sole member is PHC. With this collaboration, the two organizations began a ground breaking journey toward fully integrated service provisions in historically under-represented communities. By providing holistic comprehensive integrated healthcare across the lifespan to populations in great need, PHC and ALM Hopewell Center are responding to a concern expressed with increased urgency by stakeholders and throughout the region.

ALM Hopewell Center has been a CARF Accredited organization since 2012. ALM Hopewell Center embodies the philosophy to build better lives through hope, treatment and wellness for the community it serves. In 2017, ALM Hopewell Center expanded capacities to offer Children’s mental health services in a new building by the name of Lacy Clay Center for Children’s Health.

The Center’s wide range of mental health and rehabilitative services designed to meet the needs of individuals with a mental illness include the following:

- Children, youth and adult community support services
- Case management services
- Psychiatric evaluation
- 24/7 emergency care services, including crisis beds
- On-site pharmacy
- Life skills training
- Deliver Pharmacy Services
- Housing programs (residential care, apartments, and supportive community living)
- Outpatient counseling (individual, group and family)
- School-based programs
- Psychosocial rehabilitation program (weekdays and Saturdays)
- Nursing services (to include nurse care managers)
- Healthcare Home services
- RISE residential services for transition-age youth

The mission of the ALM Hopewell Center: To improve the quality of life for the mentally challenged by decreasing the incidence of mental illness and its negative impact through hope, treatment and wellness.
ARTHRU CENTER

340 Kelley Pkway | Mexico, MO 65265 | Phone: 573.582.1234 | Crisis Line: 800.833.2064 | Service Area: Audrain, Callaway, Monroe, Montgomery, Pike, Ralls | www.arthurcenter.com

MISSION STATEMENT
Our mission is to partner with the people we serve, families, communities and other human service organizations in providing quality health services.

East Central Missouri Behavioral Health Services, Inc. d/b/a Arthur Center and Arthur Center Community Health, is a community health and mental health center headquartered in Mexico, MO. We serve over 6,000 people in rural East Central Missouri area. Our mission is to “Inspire community health and wellness.” Integrated care is, therefore, a priority for our Center and we seek to address the person holistically. In addition to traditional community mental health services, we have provide primary health care including pediatrics, medication-assisted treatment for substance use disorders, and dental services. This provides a foundation for improving the health of our population and providing a safety net to our communities.

Our service locations include an integrated health care facility in Mexico, a behavioral health outpatient location in Fulton, MO and two residential settings in Mexico.

A general listing of services offered by Arthur Center include:
• Youth and Adult community psychiatric rehabilitation services
• Psychosocial Rehabilitation
• Outreach services for children and adults
• Psychiatric services for children and adults
• Psychological services
• Access/Crisis Intervention Services, 24 hrs. per day/365 days per year
• Nursing services
• Out-patient Psychotherapy
• Medication-assisted Treatment and substance use disorder services
• On-site pharmacy in Mexico
• Transitional Housing (Hope Center) for adults with intensive support needs
• Psychiatric Individualized Support Living for transition-aged youth and co-occurring developmental disabilities
• School-based programs for youth
• Health Care Home/Patient Centered Health Home program for behavioral health and primary care
• Pediatric Care
• Primary care for adults
• Dental services
• Employment Services for adults
BEHAVIORAL HEALTH RESPONSE, INC.

12647 Olive Blvd., Suite 200 | St. Louis, MO 63141 | 314.469.4908 | Crisis Line: 800.811.4760 | Service Area: Franklin, Iron, Jefferson, Lincoln, St. Charles, St. Francois, St. Louis City and County, Warren, Washington and 24/7 Telephonic ACI Services for Arthur Center, Bootheel Counseling Services, Community Counseling Center, Compass Health: Pathways Community Health, Family Counseling Center, Mark Twain Behavioral Health and Ozarks Medical Center Behavioral Healthcare | www.bhrstl.org

MISSION STATEMENT
BHR, the community’s behavioral health safety net, ensures compassionate and immediate barrier free access to behavioral health services.

Behavioral Health Response (BHR) is a non-profit organization, incorporated in the State of Missouri in 1994. It was developed by the Eastern Region Community Mental Health Centers (CMHCs) of the Missouri Department of Mental Health (DMH) to plan, coordinate and deliver access and crisis intervention services. This crisis system serves more than two million people living in urban, suburban and rural areas in the Eastern Region of Missouri. BHR also operates four youth-focused lines in Eastern Missouri: the St. Louis City, St. Louis County, Franklin and St. Charles County Youth Connection Help lines. These programs include ongoing follow-up for all callers and one of the nation’s first crisis text and chat services. Youth in St. Louis City, St. Louis County, Franklin County and St. Charles County can now reach a clinician by phone, online chat or text. In 2011, BHR extended the crisis text service across the nation in partnership with the National Safe Place Program.

In 2010, BHR created a suicide telephonic follow-up care model and, with the addition of a recent Missouri Foundation for Health Grant, has one of the largest suicide follow-up care programs in the nation and added one of the first large scale suicide care follow up program for adults in 2015. BHR has continued to grow over the last 22 years and stay on the cutting edge of crisis intervention and call center services. BHR is a networked center for the National Suicide Prevention Lifeline, a leader in Missouri’s Zero Suicide efforts and a part of Missouri’s Trauma Informed Care learning collaborative. BHR also provides 24/7 crisis line services to several Native Alaskan communities and to four counties in Michigan. BHR now provides telebehavioral health services, including full behavioral health intakes via encrypted video conferencing. In addition, BHR provides services for many other state and county agencies, employee assistance programs, managed care programs, substance use treatment facilities, and international corporate feedback services. BHR recently began implementation of statewide crisis text services for a large managed care agency and

BHR’s services include:
• A professionally staffed 24/7 contact center with text/chat
• 24/7 face-to-face evaluations in the community (mobile outreach services)
• Next-day urgent appointments at community mental health centers
• Crisis stabilization beds
• Access point in Eastern Region for Missouri Department of Mental Health Emergency Department Enhancement Project
• Access point for Community Mental Health Liaison and assistance with civil involuntary detention
• Youth Connection Help line Services, including SMS texting and online chat
• Access to mental health professionals
• Follow-up and care coordination for mental health, managed care and Employee Assistance Programs
• Integrating behavioral health services at health clinics via mobile outreach and telephonic assessment
• Centralized intake, triage and referral for Substance Use Center
MISSION STATEMENT

BJC Behavioral Health’s mission is to improve the health and well-being of the people and communities we serve who are impacted by mental illness. Its vision is to enable individuals to improve their health and wellness, live self-directed lives and strive to reach their full potential.

BJC Behavioral Health is an affiliated member of BJC HealthCare and is accredited by The Joint Commission. It is a community mental health center that provides and coordinates behavioral health services for more than 8,000 seriously mentally ill adults and seriously emotionally disturbed children in the central and southern sections of St. Louis City and in St. Louis, Iron, St. Francois and Washington counties. As an Administrative Agent of the Missouri Department of Mental Health (DMH) it serves as a point of entry for people eligible for mental health services funded by DMH and is responsible for serving as gatekeeper to the public mental health system (safety net). BJC Behavioral Health employs more than 400 caring and competent clinical staff to provide an array of mental health services and arrange for other supportive services allowing adults and children with mental health problems to live in their homes and communities. Both short-term and long-term services are provided in a variety of settings, including BJC Behavioral Health sites, clients’ residences, schools, or within contracted treatment provider locations throughout the service areas. It provides and coordinates specialized behavioral health services and programs such as residential programs, vocational assessment and counseling, jail diversion programs, engagement and treatment of the homeless population, and treatment for children and youth in the social welfare system.

In addition to its role as a community mental health center, BJC Behavioral Health serves the community through its participation in the BJC Health Literacy/Community Outreach program and through school services and consultation.

**Services include:**

- Same Day Access
- Community psychiatric rehabilitation
- Medication management
- Psychiatric services
- Assertive community treatment
- Intensive in-home services for children
- Intensive residential treatment services for adults
- School-based services
- Respite services for adults
- Respite services for children
- Family assistance services for children
- Treatment family homes for children
- Crisis beds for adults
- Crisis beds for children
- Services for deaf and hard-of-hearing
- Procovery circles
- Integrated dual diagnosis treatment
- Dialectical behavioral therapy
- Illness management & recovery groups
- Pharmacy
- Shelter outreach/homeless program
- Young adult program
- Lifestyle modification groups
- MO HealthNet Healthcare Home
- Cognitive Behavioral Therapy
MISSION STATEMENT
Bootheel Counseling Services and Family Medical Clinic is committed to providing excellent, comprehensive behavioral and primary healthcare.

Bootheel Counseling Services (BCS) began serving Southeast Missouri in 1976 as Tri-County Counseling Center. In 1982, the center was renamed Bootheel Mental Health, and in 1991, Bootheel Mental Health became Bootheel Counseling Services. Over the past 40+ years BCS has grown from a staff of three to over 110 full-time employees. Services have expanded from basic counseling services to a variety of behavioral, substance use, and primary healthcare services.

Bootheel Counseling Services is a comprehensive community behavioral and primary healthcare center providing services to adults, children and families. BCS has three locations: the main office and Clubhouse located in Sikeston, and the Stoddard County branch office in Bloomfield. BCS is the Administrative Agent for the Missouri Department of Mental Health, Division of Behavioral Health. Bootheel Counseling Services is CARF accredited.

BCS’ “Clubhouse” facility located in Sikeston provides consumers the opportunity to participate in planning and daily operation, including preparing and serving meals. Members are offered tools and resources to enhance their abilities to have self-sufficient lives.

Services include:
- Community psychiatric rehabilitation program
- Medication management services
- Outpatient counseling services
- Integrated mental health and substance use treatment
- Psychosocial rehabilitation services (clubhouse model)
- Employee Assistance Programs
- 24-hour crisis response services
- Trauma informed care
- Targeted case management program for adults and children
- Treatment family homes
- Juvenile Justice Treatment Project
- Family Medical Clinic/Rural Health Clinic
- Healthcare Home
- Educational and informational services

Activities offered include:
- Group and Individual therapies in a comfortable community setting
- Interpersonal skills training
- Vocational programs
- Recreational programs

We believe in:
- Treating everyone with empathy, respect and honesty
- Encouraging diversity and respecting differences in people and culture
- Maintaining high ethical standards, individually and organizationally
- Providing confidential, competent, and compassionate care in a safe and efficient manner
- Treating the “whole” person to achieve wellness
- Pursuing the means to provide affordable services
- Professional responsibility to clients, community, co-workers and self
BURRELL BEHAVIORAL HEALTH

MISSION STATEMENT
To improve the health and quality of life of our community members by providing comprehensive, integrated mental health, addictions, developmental, and health services.

For more than 40 years, Burrell has served individuals across southwest Missouri; and, in 2007 began serving communities in central Missouri as well. The past has brought much growth, development and refinement in the continuum of care we are able to offer to those we serve. And, as Burrell’s services have grown, diversity and expertise of our staff has also grown. What remains the same is our staff’s commitment to excellence in the quality of care offered as well as to the continued enhancement, growth and development of those services.

Burrell is increasingly focused upon enhanced integration of mental health care with a broad range of other human services such as health, developmental disabilities, addictions and education; upon meeting mental health needs when and where they occur and before they become more serious. And, it is in this context that Burrell will continue to expand the programs and services provided in our communities, continually striving to be responsive to the specific and changing needs of the individuals and communities we serve.

In the 17 counties it serves, Burrell operates out of 49 primary locations collectively offering the following services:

- 24 hour Crisis Services
- Autism testing and services
- Case Management
- Community Support
- Consultation services
- Counseling services
- Day Treatment
- Developmental Disabilities
- Diagnostic testing and evaluation
- Education and therapy groups
- Employee Assistance Program
- ER Diversion
- Healthcare Home
- Housing and Support
- Judicial System Support
- Law Enforcement Support
- Medication management
- Psychosocial Rehabilitation
- Residential Services
- School-Based Services
- Substance Use Disorder treatment
CLARK COMMUNITY MENTAL HEALTH CENTER

104 West Main | Pierce City, MO 65723 | Phone: 417.235.6610 | Crisis Line: 800.801.4405 | Service Area: Barry, Dade, Lawrence | www.clarkmentalhealth.com

MISSION STATEMENT
Moving forward, improving lives and communities through compassionate care.

The Clark Community Mental Health Center, Inc. (Clark Center) is a 501(c)(3) not-for-profit corporation. Clark Center, the Administrative Agent for the Division of Comprehensive Psychiatric Services for Barry, Dade and Lawrence counties, has been providing mental health and substance use services in the Monett area since May 1971. In 1992, the Clark Center became a Community Psychiatric Rehabilitation Center for the three counties.

Services Include:

- Addiction Counseling Services
  - Substance Abuse Traffic Offenders Program (SATOP)
  - CSTAR
- Community Psychiatric Rehabilitation Center
  - Care coordination for children, youth and adults
  - Psychosocial Rehabilitation (PSR) day program for adults
- Healthcare Home Services
- Intake/screening services offering open access
- Intensive in-home services
- Outpatient mental health services
  - Crisis services (ACI)
  - Community education classes like Mental Health First Aid (MHFA)
  - Community outreach
  - Family therapy
  - Individual therapy – children and adults
  - Psychological evaluations
  - Psychiatric (medication) services
MISSION STATEMENT
The mission of the Community Counseling Center is to provide comprehensive behavioral health and prevention services to every person in need in our five county region.

Community Counseling Center (CCC) is a private, charitable, 501(c)(3), not-for-profit behavioral health organization serving as the Administrative Agent for the Missouri Department of Mental Health for a five-county Southeast Missouri service area. Established in 1974, CCC strives to provide a full array of comprehensive behavioral health services which include:

General Outpatient Services:
- Psychiatric Evaluation and Medication Management
- Assessment and Treatment Planning
- Outpatient Therapy
- Community Support
- Healthcare Home
- Crisis Intervention

Child and Adolescent Outpatient Specialties:
- Day Treatment
- School Based Therapy
- Parent Child Interaction Therapy
- Trauma-Focused Cognitive Behavioral Therapy
- Family Support

Child and Adolescent Residential Services:
- Inpatient Diversion
- Treatment Family Home

Adult Outpatient Specialties:
- Psychosocial Rehabilitation (PSR)
- Integrated Treatment of Co-Occurring Disorders (ITCD)
- Individual Placement and Supports (IPS)
- Emergency Room Enhancement (ERE)
- Peer Support

Adult Residential Services:
- Clustered Apartments
- Intensive Residential Treatment Services (IRTS)
- Psychiatric Individualized Supported Living (PISL)
- Diversion Beds

CCC’s vision is to create a behavioral healthcare system that is capable of upholding, supporting, and maintaining recovery of our consumers. To achieve this, CCC focuses on consumer driven programming and outreach efforts which promote recovery. These include:
- TLC Warm Line – Peer phone support line that is consumer managed and operated.
- Gallery of Inspiration - Specialized gallery designed to showcase the artistic works of very talented consumers of the Community Counseling Center.
- S.N.A.P. (Stop Needless Acts of Violence Please) - A primary function of the program is to educate the public to address the violence on the Southside of Cape Girardeau, MO. In addition, the program engages in a variety of community activities including education, social services, mental wellness and community awareness.
COMPASS HEALTH

MISSION STATEMENT
Inspire Hope. Promote Wellness.

Compass Health Network is a Federally Qualified Health Center and Community Mental Health Center. Compass provides a full continuum of behavioral health and substance use disorder services including psychiatry, counseling, psychological assessments, housing supports, community-based care, residential care and acute hospital care for children, adolescents and adults.

In Fiscal Year 2018, Compass served over 184,000 individuals with behavioral, primary, and dental health services. As a leader in tele-health service delivery, Compass delivered 68,000 behavioral tele-health sessions in FY2018, reaching people in need that otherwise would not have access to care. In addition, another 65,000 plus children and adolescents received behavioral health prevention and early intervention programming within our community schools.

Our service delivery model focuses on connected health. By connecting mind with body, we serve the whole person — both emotionally and physically. The ability to balance and nurture this connection as a single, dynamic health care unit provides a different perspective of health and wellness. Combining the latest health care technologies with compassionate, quality care we work together with those we serve to chart a path to improved health. Our focus is on preventing the onset of illness rather than simply reacting to it. Our efficient and effective care is enhanced by data and technology to ensure that customers receive evidence-based care delivered in the right way, at the right time, and in the right place.

With more than 2,600 staff throughout 45 counties in southwest, northwest, central, southeast and eastern Missouri, Compass Health works to enable balanced, healthy futures in the communities we serve. Through a process of continual improvement, we move beyond health to a lifestyle of wellness. By providing exceptional care and meeting the unique health needs of each community that we serve, we improve lives — one person, one family, one generation at a time. As a vital and customer-centered health provider of choice, our goal is to ensure that everyone — without exception — has the ability to reach their full health potential.
MISSION STATEMENT

In partnership with individuals, families and our community, CMHS provides the highest quality behavioral health services with a whole person approach to treatment delivery that creates a safe environment of respect and acceptance.

The mission of Comprehensive Mental Health Services Inc. (CMHS) is to provide diverse, culturally competent mental health and substance use services for the indigent and underinsured residents of Eastern Jackson County. CMHS is designated by the State of Missouri Department of Mental Health as a Certified Community Behavioral Health Clinic (CCBHC) and is fully accredited in all programs by the Commission on Accreditation of Rehabilitation (CARF). CMHS employs approximately 220 team members in multiple locations in Eastern Jackson County and in Kansas City, Missouri, serving more than 6,000 individuals, including children, adolescents, and adults annually.

It is the vision of CMHS to provide powerful advocacy and to maintain a valued presence within the community. To fulfill this vision, CMHS is creating a collaborative alliance through building strong partnerships with area school districts, government agencies, non-profit entities, businesses and community-based coalitions/organizations.

A wide array of services offered at CMHS address the psychiatric and substance use treatment needs for those in the community who may otherwise go without care, yet CMHS recognizes the need to treat the whole person. Targeted medical services are available via integrated primary healthcare through a partnership with Swope Health Services, making CMHS a one-stop-shop for behavioral and physical health care needs. The co-location of Genoa Healthcare improves the availability of medication services and increases the accessibility and affordability of medications.

CMHS practices weekday Open Access which alleviates wait time and increases access to services at all access points for treatment.

Outpatient services provide assessment, referral, and therapy for individuals, families and groups. Substance Use Services include social detoxification, medication-assisted treatment, residential, and outpatient services.

Community Support services provide treatment to adults with severe mental illness through community-based case management, medication services, psychosocial rehabilitation, Intensive Residential Treatment Services, semi-independent living supports, employment services, and 24-hour crisis/respite/inpatient diversion. Community Support services to children/adolescents and their families include community-based case management, medication services, family support, and Treatment Family Home/Professional Parent Home placement.

The CMHS Healthy Lifestyles Program (Healthcare Home) provides specialized nurse care management to assist clients with healthcare and wellness needs.

Now entering its 50th year of service in Eastern Jackson County, CMHS is providing innovative, integrated cutting-edge treatment with exceptional client outcomes, accessible and available to all who need behavioral health care.
COMTREA COMPREHENSIVE HEALTH CENTER

21 Municipal Drive | Arnold, MO 63010 | Phone: 636.296.6206 | Crisis Line: 636.931.2700 | Service Area: Jefferson County, Adjacent Areas | www.comtreao.org

MISSION STATEMENT

Our mission is to be an innovative, effective, and responsive community treatment center.

COMTREA Community Treatment Inc. is located in Jefferson County and provides a wide and varied service continuum. Underneath the COMTREA umbrella, we have designations as a Federally Qualified Health Center, Community Behavioral Health Care provider, Domestic Violence treatment provider with A Safe Place (shelter to serve families in acute need); Children’s Advocacy Center for 10 additional counties. We also provide an assisted living facility, Keaton Center, with coordinated care, for 16 adults with behavioral health and chronic care conditions.

COMTREA is part of a comprehensive safety network in the coordination and delivery of resources to meet the needs of the individuals served.

COMTREA Comprehensive Health Center is a nationally accredited, private, not-for-profit, comprehensive community treatment center with designations as federally qualified health center and community behavioral health center. Services are provided for both Jefferson County residents as well as others who call or present for crisis needs, referrals and connections to care. For many of the services COMTREA offers, it deals with a multi-county population base; some are provided only to Jefferson County citizens (especially those provided through the Mil Tax passed in 1986 or the Sales Tax passed in 2004). As an agency we provide full spectrum, coordinated health services for our county to assure access to primary care, oral health and behavioral health needs for all ages for our county residents and those who present for care despite residence.

COMTREA is the designee for the Department of Mental Health (DMH) Division of Behavioral Health Service Area 22 (Jefferson County). In this role, COMTREA serves as in the designated role as a certified community behavioral health center and provides a wide array of behavioral health care including open access to care via screening to support level of care, to the full age spectrum of geriatric, adult, and child and youth populations. We also participate with other providers in the Eastern Region of Missouri via Behavioral Health Network and DMH to provide outreach, engagement and diversion support from Emergency Room Enhancement program as well as Hospital Community Linkage programs for both adults and children.

Services provided are crisis intervention, screening and assessment, individual therapy for mental health and substance use needs, group therapy and education; psychiatric evaluation and medication management and nursing services; medication assisted treatment; enriched veterans services; peer support and recovery coach services and full support for outreach and continued engagement for care. All this is accomplished within standardized evidenced based practices to assure excellent care outcomes for those we serve. We also provide school based, comprehensive health care (behavioral health, oral health and primary care services) in the Northwest School district and plan to expand to other school districts in the coming years; we also provide mental health professionals, via our sales tax, to each school district to provide crisis intervention, individual and group therapy as well as additional behavioral health supports.

In addition to its role as Administrative Agent for DMH, COMTREA is also the community mental health/substance use treatment provider for Jefferson County, as designated by the Jefferson County. We are the treatment provider for the 23rd District Circuit Court, serving its drug treatment courts, divorce education needs, and residential adolescent treatment center. COMTREA provides a domestic violence shelter (A Safe Place) for those families experiencing domestic abuse and intimate partner violence and created the Eastern Missouri Child Advocacy Center which provides forensic sexual abuse evaluation for children referred to its De Soto, Farmington, or Union offices from the prosecuting attorneys of ten counties.

COMTREA also acts as a teaching/education/research center for the mental health/substance use field for the St. Louis eastern region. The major universities and colleges in the St. Louis region use COMTREA as a practicum student site (Up to ten interns are on-site at COMTREA at any one time.). COMTREA is also a site for advanced practice nursing students needing to obtain clinical hours in behavioral medicine. COMTREA also hosts SLU Residents in psychiatry in our Arnold location.
FCC BEHAVIORAL HEALTH

VISION STATEMENT
Person-Centered Recovery and Wellness.

FCC Behavioral Health is a private, non-profit certified community behavioral health clinic (CCBHC) with a proven history of delivering effective, person-centered, community-based care in rural Southern Missouri. Founded in 1976, FCC Behavioral Health continues to promote recovery by providing comprehensive, integrated care in order to improve people’s overall health and wellness.

FCC Behavioral Health offers a wide array of behavioral health programs for individuals and families. Programs include mental health, substance use disorders, healthcare home, housing, prevention, disease management and targeted outreach programs (i.e. ERE and CMHL). At each of our 27 clinics and treatment centers across Southern Missouri, qualified professionals provide a person-centered, wellness approach to care. Last year, FCC’s 400 staff served over 5,200 Missourian’s with behavioral health care.

Services include screenings, comprehensive assessment, crisis response and intervention, individual and group therapy, psychiatry, disease and disorders education, community support, psychosocial rehabilitation, medication management, wellness groups, recreational groups, vocational services, peer support, medication-assisted treatment, and many others. Intensity of care includes residential, day treatment, intensive outpatient, outpatient and maintenance levels of care to meet the needs of each person. Care is delivered using a comprehensive, integrated approach that also meets the preferences of each person using trauma-aware practices. People are empowered to take an active role in the development of their individualized wellness and recovery plan.

FCC Behavioral Health’s core values include:

• Behavioral health conditions can effectively be treated in the community, using evidence-based practices to empower people to achieve and sustain their individual recovery and wellness goals.
• Quality care occurs in the least restrictive environment suitable to the person’s unique needs and preferences which promotes choice, safety and confidentiality, using a trauma-informed approach.
• Prevention of diseases and disorders is possible through community education, training and screenings.
• Collaboration with communities is vital to ensure that behavioral health needs are identified, addressed and the stigma surrounding these needs is eliminated.
• Behavioral health care is affordable when people have sufficient access to quality care that promotes overall well-being.
Family Guidance Center helps individuals and families lead healthier, more productive lives by providing an array of quality behavioral health and health services.

Family Guidance Center for Behavioral Healthcare has a 107-year history of providing needed community based services to individuals and families in Northwest Missouri. Founded as a nonprofit organization in 1907, it has evolved to provide a broad range of CARF accredited behavioral health care services for adult and child mental health, and substance use disorder treatment. Serving the nine counties of Andrew, Atchison, Buchanan, Clinton, DeKalb, Gentry, Holt, Nodaway and Worth, Family Guidance Center for Behavioral Healthcare is headquartered in St. Joseph and has regional offices in Cameron and Maryville.

A multidisciplinary staff comprised of physicians, social workers, nurses, and other highly trained professionals work cooperatively and in partnership with a variety of other community-based organizations to provide a recovery-oriented focus to those we serve.

All staff are consumer and family centered and guided by a strict code of conduct that seeks recovery for all consumers. Consumer-based surveys have earned the organization a consistently high rate of satisfaction from those we serve.

Help is available 24 hours a day, 365 days a year. Family Guidance Center for Behavioral Healthcare is dedicated to offering an array of behavioral health programs and evidence-based services to help people assess and improve their lives.
GIBSON RECOVERY CENTER, INC.

340 South Broadview, PO Box 1267 | Cape Girardeau, MO 63702 | Phone: 573.332.0416 | Service Area: Bollinger, Cape Girardeau, Madison, Mississippi, Perry, Scott, Ste. Genevieve | www.gibsonrecoverycenter.org

MISSION STATEMENT
The Gibson Center is committed to providing comprehensive services which promote new behaviors for a health lifestyle.

Gibson Recovery Center Inc., GRC, has been providing services for those who suffer from substance use and mental illness for more than 37 years. GRC, a 501 (c) (3) not for profit organization was founded by a group of businessmen in 1979 who recognized the need for services in southeast Missouri. Gibson in 2015 serviced 44 of the 114 counties in Missouri. We are certified by the State of Missouri Department of Mental Health and the Commission on Accreditation of Rehabilitation Facilities, (CARF).

Gibson Recovery Center provides competent substance use and mental health services for the uninsured and/or under insured, private pay, and private insured for adult male and females 17 years and 9 months of age or older. GRC’s approach is to treat the whole person. We offer the following menu of services to our consumers.

**Detox** – This program has two levels of service. Social Setting detox is for individuals who may have recently used and need to have observation under nursing care. Modified Medical detox is for individuals who have recently used and may need medications to help with withdrawal symptoms such as nausea, vomiting, muscle cramps, etc. Both programs have 24 hour nursing observation and are overseen by our Director of Nursing and other medical personnel.

**Residential Services** – Individuals are housed in a safe secure environment while they are taught skills to help them in dealing with their addiction. This program includes multiple hours of group counseling and group education, individual counseling, nursing, community support and medication assisted treatment. Program length is based on individual goals and treatment team recommendations.

**Day Treatment** – This program includes multiple hours of group counseling and group education, individual counseling, and case management support per week. Individuals also have access to medication assisted treatment as needed. This program differs from residential because individuals are not housed in this program level. Length of time in this program is based on clinical recommendation from treatment team.

**Vision House** – This is a transitional program that allows women to live in a safe housing environment while learning to deal with their addiction. This program also works with women to help them find affordable housing, employment, and to help them transition into a life without substances. After women are employed they are responsible to pay for 30% of their housing cost while continuing to live in safe housing. This program includes group counseling, group education, individual counseling, community support, and medication assisted treatment. Program length is typically 30-90 days but is based on individual goals and treatment team recommendations.

**Hillcrest Pointe** – Individuals are housed in a safe secure environment while they are taught skills to help them in dealing with their addiction. This program includes multiple hours of group counseling and group education, individual counseling, community support and medication assisted treatment. This program currently accepts: Medicaid, private insurance, and private pay individuals. Program length is based on individual goals and treatment team recommendations.
HEARTLAND CENTER FOR BEHAVIORAL CHANGE

1730 Prospect | Kansas City, MO 64127 | 816.421.6670 | Service Area: Clay, Jackson, Platte, Ray, Springfield and Surrounding Counties | www.heartlandcenterforchange.org

MISSION STATEMENT
The mission of the Heartland Center for Behavioral Change is to provide behavioral healthcare and substance abuse services to help individuals lead healthier, happier, more productive lives.

For more than thirty years, the Heartland Center for Behavioral Change (formerly known as the Kansas City Community Center), has been helping people rebuild their lives. We are a private, not-for-profit organization that specializes in providing community-based substance use treatment and services to the criminal justice system. We serve medically indigent persons at six outpatient locations in the Greater Kansas City Metropolitan Area and at six locations in Southwest Missouri. The Heartland Center also operates a residential center for offenders in Kansas City.

We are keenly aware that our services have a very direct impact on the safety and health of the communities we serve and that the best results come when services are responsive to the needs of each person. We provide individualized substance use treatment services ranging from modified medical detoxification to support recovery services. Our services include a diagnostic assessment, individual and group counseling, group education, and community support at a level of intensity that is matched to client needs. Our medically monitored inpatient detoxification unit in Kansas City offers a safe alternative to emergency room services by helping persons to safely and humanely detoxify from substances through the use of medication and medical monitoring.

We are a significant provider of services to local court systems. Heartland Center is the substance use treatment provider for Greene, Jackson, and Polk county drug courts, and for the Greene County DWI Court. Our services to the Jackson County Misdemeanor Drug Court and Independence Municipal Court include electronic monitoring services, private probation services, and counseling for persons that have been adjudicated with shoplifting and domestic violence offenses.

Heartland Center also offers residential supervision and services for offenders transitioning from prison to the community. Our Correctional Transitions Unit assists men and women referred by the Missouri Department of Corrections.

More than 1,500 persons are helped each day by Heartland Center. Annually, more than 5,000 persons are helped to rebuild their lives!
INDEPENDENCE CENTER

MISSION STATEMENT

Our mission is to provide all the services and resources a person with a serious & persistent mental illness needs, to manage their symptoms, find belonging & purpose, and gain the independence to live a healthy, quality life.

Independence Center is an active, forward-thinking organization that helps people with serious and persistent mental illnesses live healthy, quality lives.

At the heart of Independence Center is our Clubhouse, which is accredited by Clubhouse International, a globally recognized leader in changing the world of mental health. Our Clubhouse is the second largest in the world. Our members come voluntarily for a purpose-filled day and those who are able get on a path to meaningful employment.

Independence Center also provides psychiatric care and counseling, highly personalized community support, coordination of care between medical providers, and housing.

With our support, members come to realize their value. They learn to manage their illness, and not be defined by it. They discover they are not limited in what they can accomplish.

We want our success to inspire a mental healthcare movement. We want everyone to recognize that mental illness is not something to fear or be ashamed of. It’s something to talk about, treat and manage. Instead of facing homelessness, isolation, or incarceration, people with mental illnesses can be living a good life and contributing their talents to the greater good.

In addition to the employment program, Independence Center also assists members in locating and securing safe and affordable housing. Our housing program includes:
- Four Center-owned apartment buildings with HUD rental subsidies, with some including 24- hour oversight for medication management and emergencies
- Private one-bedroom and efficiency apartments
- Assistance with locating apartments throughout the community via a network of landlords supportive of the needs of our members
- Help with general living skills and daily tasks such as grocery shopping and cleaning
- Regular apartment visits by Independence Center staff

To meet members’ special medical needs, the Center created Independence Center Health Group (an outpatient program). The physicians and staff of Independence Center Health Group are committed to providing:
- Clinical staff who work closely with patients, family, and community support services
- Group and individual therapies in a comfortable community setting
- A dynamic service system that encourages a holistic and effective team approach to psychiatric care
- Peer and professional support, coping skills, and medication management
- Community support services to achieve the participants’ goals and to transition participants successfully into the community

One of Independence Center’s core beliefs is that work plays a central role in life and helps form an adult’s sense of identity and self-worth.

Independence Center assists members in pursuing employment by providing:
- Hands-on skills and work readiness training the clubhouse
- Transitional work opportunities
- Ongoing follow-up for both the employee and employer
- On-the-job training and supervision
- Job development and placement
- Employment workshops
- Time-unlimited job retention and upgrade services

MISSION STATEMENT

Our mission is to provide all the services and resources a person with a serious & persistent mental illness needs, to manage their symptoms, find belonging & purpose, and gain the independence to live a healthy, quality life.
MARK TWAIN BEHAVIORAL HEALTH

154 Forrest Drive | Hannibal, MO 63401 | 573.221.2120 | Crisis Line: 800.356.5395 | Service Area: Adair, Clark, Knox, Lewis, Macon, Marion, Schuyler, Scotland, Shelby | www.mtbh.org

MISSION STATEMENT

The mission of Mark Twain Behavioral Health is to enhance the overall health and well-being of those we serve.

Our Vision: The Vision of Mark Twain Behavioral Health is to be the trusted leader inspiring hope and wellness for those we serve.

Mark Twain Behavioral Health (MTBH) is a private, not-for-profit Certified Community Behavioral Health Clinic (CCBHC) serving citizens of Northeast Missouri since 1975. Initially funded by federal grant dollars, the agency began contracting with the Missouri Department of Mental Health in 1981 and has served as the Administrative Agent for service area 14 since that time. Governed by a volunteer board of directors, the agency provides behavioral health services on an outpatient basis from its Hannibal, Kirksville and Macon locations to residents throughout a nine-county area which includes Adair, Clark, Knox, Lewis, Macon, Marion, Schuyler, Scotland and Shelby counties.

Approximately 3,500 consumers are served annually by a team of psychiatrists, social workers, counselors, nurses, community support specialists and support staff who share the philosophy that individuals who suffer from serious mental illness can lead productive and satisfying lives.

MTBH provides the following services for consumers and their families:

- Counseling – individual, family and marital
- Psychiatric evaluation and medication management
- Employee Assistance Programs
- School-based contracted services
- Healthcare Home
- Access Crisis Intervention Services (24 Hour)
- Consultation and education
- Specialized services for serious and persistent mental illness
- Comprehensive psychiatric rehabilitation for adults and children
- Supported community living
- Integrated dual diagnosis treatment
- Psychosocial rehabilitation services
- Emergency Room Enhancement Program
- Mental Health First-Aid Training
- Community Mental Health Liaison

MTBH maintains professional affiliations with the Missouri Department of Mental Health, Missouri Foundation for Health, MO HealthNet, National Suicide Prevention Lifeline, Missouri Coalition for Community Behavioral Healthcare, National Council for Community Behavioral Healthcare, Missouri Department of Corrections and Missouri Institute of Mental Health.
MINERAL AREA CPRC, INC

MISSION STATEMENT

Persons with severe and persistent mental illness and those with co-occurring disorders (severe and persistent mental illness and a substance abuse disorder) can achieve recovery and should be active participants in program planning as well as individualized treatment planning consistent with individual abilities. To the extent possible, normalization, community integration, independent functioning and rehabilitation shall be goals for person centered service delivery.

Integrated dual disorders treatment, aggressive outreach and ease of service access are essential characteristics of successful programs serving individuals with co-occurring disorders. A coordinated team approach is essential to the delivery of quality integrated dual disorders treatment. Services shall be available in varying levels of intensity based on individual client need as a multi-disciplinary team approach to service delivery is a model which best assures the quality and continuity of client care. Services and programs shall be person centered and responsive to the needs of those served rather than the needs of the service system or those employed by it.

Mineral Area CPRC, Inc provides the following services for consumers and their families:

- Assessment (Initial)
- Certified Missouri Peer Specialist
- Clustered Apartments
- Community Support
- Consultation Services
- Co-occurring Individual Counseling
- Co-occurring Group Counseling
- Co-occurring Group Education
- Co—occurring Supplemental Assessment
- Crisis Intervention and Resolution
- Critical Intervention
- Diversion Bed (90 day maximum)
- Intake/Annual Evaluation
- Intensive Community Psychiatric Rehabilitation
- Intensive Residential Treatment Setting (IRTS)
- Individualized Supported Living (Like) Apartments
- Medication Administration
- Medication Services
- Metabolic Syndrome Screening
- Psychiatric Individualized Supportive Living (PISL)
- Psychosocial Rehabilitation
- Psychosocial Rehabilitation Illness Management and Recovery
- Psychosocial Rehabilitation Individual and group
- Treatment Planning

NEW HORIZONS COMMUNITY SUPPORT SERVICES

MISSION STATEMENT

We assist people with severe and persistent mental illnesses and co-occurring substance use disorders by providing quality, integrated psychiatric rehabilitation services. We offer people hope, kindness, and respect for their process of recovery, while helping them effectively manage their lives.

New Horizons assists adults with disabling mental illnesses as well as adults with co-occurring substance use disorders. Additional eligibility criteria are discussed at screening.

Programs and Services

Community Psychiatric Rehabilitation Program The Community Psychiatric Rehabilitation Program (CPRP) assists consumers with working toward independence and recovery. Services are guided by consumers’ personal goals, established through evaluation and rehabilitation planning. New Horizons strives to provide effective interventions that are established by research.

Community Support is provided one-on-one. Community Support Specialists assist consumers in pursuing their life goals while learning about their diagnoses and symptoms, learning symptom management skills, and recovery strategies, engaging in meaningful activity and participating in Wellness Coaching.

Healthcare Home is a place where consumers can come to have their healthcare needs identified. They will receive the medical behavioral and related social services and supports they need. Our care is coordinated in a way that recognizes all of their needs as individuals—not just patients.

Medication Services are provided by Psychiatrists and/or Advanced Practice Nurses and include prescription of psychotropic’s as well as medications to treat the cravings associated with addictions. Medication administration is provided by nurses.

Crisis Intervention and Resolution is offered 7 days per week, 24 hours per day. A crisis hotline links consumers to trained specialists who assist them in resolving crises. On-call staff is available to provide emergency assistance when it is needed.

Counseling Services are provided in individual and group formats, focusing on brief mental health counseling or substance use counseling, support and education about addictions and mental illness.

Psychosocial Rehabilitation offers a community center atmosphere where consumers may participate in recovery-oriented educational, recreational and vocational activities.

Projects for Assistance in Transition from Homelessness (PATH) Homeless Outreach Specialists assist homeless consumers with securing housing, obtaining benefits and connecting with community resources. Medication services, crisis intervention services and psychosocial rehabilitation services are also available to PATH consumers. PATH services are available only in Boone County.

Residential Services provides a variety of structured living environments with various levels of staff support and hours of staff on site. These include Residential Care Facilities licensed by the Missouri Department of Health and Senior Services and Missouri Department of Mental Health, and community apartment sites with supports. Most New Horizons consumers live independently without assistance from Residential Services.
MISSION STATEMENT

North Central Missouri Mental Health Center delivers high quality trauma-informed behavioral health services in a caring and compassionate atmosphere that promotes dignity, builds on natural supports, encourages consumer choice, embraces cultural diversity, and empowers individuals through collaboration to achieve their highest quality of life.

North Central Missouri Mental Health Center was organized as the Green Hills Substance Abuse Task Force during the winter of 1973-74. The group, as implied by the organization’s original name, focused on substance use and what might be done to reduce the apparent increase in drug availability in the region. The agency was incorporated on June 27, 1974 as the Green Hills Counseling Center. In 1982 the Green Hills Counseling Center became North Central Missouri Mental Health Center. In 1988 the agency moved its administrative office to the current location at 1601 E. 28th St. in Trenton.

North Central is the Administrative Agent for the Missouri Department of Mental Health’s Service Area 13. In addition to the Trenton location, the agency delivers services through satellite offices located in six of the nine counties included in the service area.

North Central holds current certification through the Missouri Department of Mental Health and the Commission on Accreditation of Rehabilitation Facilities (CARF). Targeted populations include SED (seriously emotionally disturbed) children, SMI (seriously mentally ill) adults, individuals who are in acute distress and forensic referrals.

Services include assessment, referral, community education groups, support groups, community support for children and adults, crisis intervention/resolution, individual, family and group counseling for children and adults, psychosocial rehabilitation for adults, psychiatric medication services for children and adults, integrated dual diagnosis treatment services, healthcare home services.

North Central is a current member of the Missouri Coalition for Community Behavioral Healthcare, National Council for Community Behavioral Healthcare, the Community Network for Behavioral Healthcare, Inc. and the National Association for Rural Mental Health.

NCMMHC became a CCBHC as of July 1, 2017.
OZARK CENTER

1105 E. 32nd Street, PO Box 2526 | Joplin, MO 64803 | 417.347.7600 | Crisis Lines: 800.247.0661 or 417.347.7720 | Service Area: Barton, Jasper, McDonald, Newton | www.ozarkcenter.com

MISSION STATEMENT
To improve the health of the communities we serve through contemporary, innovative, trauma informed, quality behavioral healthcare solutions.

Ozark Center, a 501(c)(3) not-for-profit Certified Community Behavioral Health Center, established in 1965, joined Freeman Health System, in 1995. Ozark Center is dedicated to providing a comprehensive range of effective, confidential, evidence-based behavioral health services. Our comprehensive behavioral health system serves more than 14,000 consumers annually and employs more than 630 individuals. As the Administrative Agent for the Missouri Department of Mental Health, we provide services in Barton, Jasper, Newton, and McDonald counties. Through contracts with the Division of Social Services, residential services to youth from around the state are accessible in Joplin.

Ozark Center is dedicated to providing a comprehensive range of effective, confidential, evidence-based behavioral health services. As reflected in our mission statement, we have continually expanded our services and programs in the communities we serve by being innovative and passionate about providing the highest standard of evidence-based services. Ozark Center is committed to bridging the gap between behavioral health research and practice by offering our communities the latest evidence-based behavioral health treatments, including counseling, applied behavioral analysis (ABA) and virtual reality exposure treatment. Rooted in scientific research, these treatments have been studied in thousands of people and produce better outcomes than nonevidence-based treatments.

Individuals and families turn to Ozark Center for help with issues that profoundly affect their lives, often feeling hopeless and confused. Strengthened by the support of our staff and services, our clients gain strength and triumph over their challenges.

Services:
- 24 hour crisis line
- Addiction services, including modified medical detoxification, residential and outpatient services

- Nutrition Services
MISSION STATEMENT
To provide exceptional, compassionate care to all we serve.

Ozarks Medical Center Behavioral Healthcare is dedicated to delivering efficient and effective mental healthcare services in the least restrictive environment possible. We offer the most comprehensive mental health services program in south central Missouri and north central Arkansas for individuals six years old or older.

At OMC Behavioral Healthcare, our team-oriented clinicians include psychiatrists, social workers, counselors, nurses, and advanced practice nurses. With offices in West Plains and Mountain Grove, clients can receive services in the location that best meets their needs. Both clinics provide mental health treatment, as well as family medical appointments, children and youth psychiatric services, targeted case management, psychotherapy (group, individual and family), family assistance, medication services, and crisis stabilization services.

Treatment is provided on an outpatient basis or in the patient’s home, based upon each client’s individual needs. There is also access to an inpatient NeuroPsych Unit, located in Ozarks Medical Center, for adults age 18 or older who need crisis stabilization in a safe, caring environment. Community support workers are available to help those who are chronically ill learn to live in an independent fashion.

OMC Behavioral Healthcare is proud of its ability to be available 24 hours a day in times of crisis. Families, clients and the community are encouraged to use MOCARS (Missouri Crisis Access Response System) by dialing 800-356-5395. A counselor is available to take your call, talk with you and, if necessary, identify the best resources available to meet your individual needs and help locate the best resource for each individual’s situation.

Mental health services for children six years of age or older, adolescents and adults include:
- Psychotherapy for the individual, couple, group or family, aimed at helping individuals restore and maintain healthy functioning
- Case management for children and adults that is intended to assist individuals in gaining access to psychiatric, medical, social, and educational services, and support within the community
- Psychosocial rehabilitation, a treatment designed to help chronically mentally ill individuals reach their maximum recovery
- Medication services to help reduce the severity and duration of mental disorders
- Children and youth psychiatric services
PHOENIX PROGRAMS, INC.

90 East Leslie Lane | Columbia, MO 65202 | 573.875.8880 | Crisis Lines: 888.279.8188 | Service Area: Boone, Carroll, Chariton, Cooper, Howard, Moniteau, Morgan, Pettis, Randolph, Saline | www.phoenixhealthprograms.com

MISSION STATEMENT

Phoenix Programs’ mission is to reduce the adverse affects of alcoholism and other drug addictions in our families and our community by providing treatment, support and educational services. Our purpose is to restore dignity and respect to persons who have experienced significant losses as the result of an alcohol and/or other drug problems in order to return a productive and responsible person to the community. The ultimate goal is a strong, recovery-oriented system that supports a client throughout treatment to stay in place as one prepares to disengage from the center at discharge.

When surveyed, 84% of our clients said that the treatment programs at Phoenix Programs gave them the right tools to maintain their recovery, and 77% of clients said that the treatment they received at Phoenix Programs was superior to other programs that they had experienced.

Phoenix Health Programs is a non-profit social service agency that has successfully provided education and treatment for persons in mid-Missouri with alcohol and drug addictions and mental health issues for 36 years. Phoenix Health Programs offers a full continuum of care including fully integrated treatment for co-occurring mental health and substance use disorders. Phoenix Health Programs is a leader in the recovery movement, not only in mid-Missouri, but nationally. Our programs and services follow best practice models and focus on empowerment, self-determination and resilience. We build on the strengths of individuals and families to help each individual achieve his or her full potential and to help families heal and move forward with their lives and relationships.

Who We Serve

Phoenix Health Programs benefits fathers, mothers, college students, veterans, daughters, sons, friends, church going neighbors, high school students, and persons who dream of doing better than their parents and providing for their children—in short, persons from all walks of life. Phoenix Health Programs serves persons in Boone County and 33 counties surrounding Boone County. In 2011, Phoenix Health Programs served 1,875 people – 335 more people than were served in the previous year – and demand continues to grow in these difficult economic times. Phoenix Health Programs is now serving more families with children than ever before and an increasing number of veterans, including homeless veterans, in need of treatment for drug and alcohol addictions and mental health disorders such as depression and Post-Traumatic Stress Disorder (PTSD). Phoenix’s evidence-based programs are successful in helping our clients turn their lives around, gain employment, reconnect with their families and community, and return to school or stay in school. We help people to improve the quality of their lives.

Certification and Funding

Phoenix Health Programs has been certified by the State of Missouri Department of Mental Health (DMH) Division of Drug and Alcohol Abuse since 1974. Phoenix Health Programs receives funding from the City of Columbia; Boone County; DMH; Department of Corrections; Heart of Missouri United Way; Missouri Foundation for Health; United States Departments of Veterans Administration, Health and Human Services, and Housing and Urban Development; Missouri Housing Development Commission and through other private foundations, client fees and charitable donations.
**MISSION STATEMENT**

To provide caring, effective services to help those with the greatest challenges recover from mental illness, substance use disorders and associated chronic illnesses.

Places for People provides an unparalleled toolkit of programs, services, and resources for people in the St. Louis region who have serious mental illnesses, typically accompanied by complex and multilayered challenges: chronic homelessness, substance abuse disorder, primary health disorders, and trauma.

Places for People was founded in 1972 to address the critical shortage of appropriate, supported housing for people who were being discharged from long-term institutionalization in mental health hospitals.

Over the years, Places for People has evolved into a leading provider of specialized, comprehensive, evidence-based mental health and physical health services.

Because we seek to serve those with the greatest needs and fewest resources, our clients typically live well below any measure of poverty, and frequently experience multiple challenges, including mental, substance abuse, and trauma disorders. Currently, PfP provides direct services to 1,600 people annually.

Our organization employs more than 320 people. Through strong community partnerships, we are also able to provide an on-site pharmacy and on-site primary care office.

Our staff members partner with each person served to create an individualized treatment plan that establishes goals and charts a path to recovery, typically including coordination of psychiatric, behavioral and physical health; gaining and retaining housing; medication management, life skills/socialization, and vocational/educational assistance.

Places for People is a Certified Community Behavioral Health Clinic, serving Service Area 25, encompassing most of St. Louis City.

**Our services include, but are not limited to:**

- Integrated mental and physical health services
- Family and Youth Services
- Outpatient Psychiatry
- Outpatient Therapy
- Senior Support Services
- Supported Employment
- Substance Use Services
- and more.
MISSION STATEMENT

Preferred Family Healthcare is a dynamic and caring organization committed to providing integrated care to assist individuals in achieving overall health and wellness.

Since 1979, Preferred Family Healthcare (PFH) has been providing a broad spectrum of services to Missourians, including adults, adolescents, and children. With over 3200 employees in four states in the central United States, PFH has over 3000 staff in Missouri; serving nearly every county in the state.

One of the key motivations within the organization is the integration of services. Recent organizational expansion has increased opportunities to address the needs of individuals who have a coexisting diagnoses. For example, we have found that by supporting and preparing clients for employment, successful outcomes are found in nearly every service line. As well, supporting families where substance use disorder or a mental health diagnosis is present allows us to address a myriad of issues that may be at work in the home.

PFH works with many of the departments within the State of Missouri, including Mental Health, Social Services, Health and Senior Services, Corrections, Economic Development, and Elementary and Secondary Education. Local funding is accessed in various communities and additional funding is obtained through Children’s Services funds in five Missouri counties. Drug Court related services and several grants through the Substance Abuse and Mental Health Services Agency (SAMHSA) are some of the examples of federal funding.

With over a dozen residential locations and multiple outpatient locations, we provide significant treatment opportunities for individuals with a Substance Use Disorder. Prevention, detoxification, counseling, education, and psychiatric rehabilitation are also significant areas of service. PFH has school based early intervention and prevention services in over 40 school districts in the St. Louis Metro area (Team of Concern).

Clarity Healthcare, a Federally Qualified Health Center, operates in Hannibal, Missouri and Quincy, Illinois providing primary, dental, and mental health care. Our service to older foster youth through the federal Chafee program can be found in 80 Missouri counties. As the lead agency within Springfield Partners, we provide foster care case management services in four counties and two judicial circuits. Our work with those impacted by domestic violence is another area where a variety of supports are warranted.

As the leading provider of services to individuals with developmental disabilities, we work to ensure hundreds of Missourians are able to live in their own home and community. Our employment services not only serves individuals with a broad range of disabilities, but also specializes in serving those who are deaf or hard of hearing, those impacted by a brain injury, or individuals on the autism spectrum.

Our 35-year history has been recognized at both the state and national level and has allowed us to forge many valuable collaborative relationships. We value innovative approaches utilizing technology such as telehealth and virtual services. By identifying community and individual needs and incorporating tested evidence based practices, Preferred Family Healthcare strives to meet the challenges of today while having the capacity to respond to new opportunities to serve our communities.
MISSION STATEMENT
The mission of Queen of Peace Center is to break the cycle of substance use disorders for women, children and families through family-centered behavioral healthcare.

Since its founding in 1985, Queen of Peace Center (QOPC) has been providing family-centered behavioral healthcare for women, children and families. As a member of the Federation of Catholic Charities, we serve the metropolitan and surrounding St. Louis area through four core programs: prevention, education, treatment and housing. The Center is accredited by The National Council on Accreditation and certified through the Missouri Department of Health and Senior Services and the Missouri Department of Mental Health, Division of Behavioral Health as a Women and Children’s Comprehensive Substance Treatment and Rehabilitation (CSTAR) program.

Our unique comprehensive model addresses the full continuum of needs for families impacted by substance use, co-occurring disorders and trauma. We are dedicated to providing services that give women and children the best chance for success by offering quality treatment; helping them meet their physical, psychological, emotional and social needs; and making our services as safe, convenient, and accessible as possible. Our prevention and education programs are our mechanism to stop substance use before it starts. We support our work through diverse partnerships with funders including public agencies, private foundations, donors and corporations—and we optimize reimbursement from insurance and other payers by promoting our model as best practice to encourage wide adoption and coverage.

- Family-Centered Behavioral Health Treatment provides women with the opportunity to heal from the wounds of addiction together with their children and families. Addiction is a disease that impacts the entire family. Various treatment options for women, children and families include:
  - WOMEN Diagnostic Screening and Clinical Assessment, Residential and Outpatient Treatment, Individual and Group Co-occurring Counseling, Group Education, Peer Mentoring and Recovery Support, Trauma Recovery Support, Art Therapy, Primary Health Care Referral and Services, Medication Assisted Treatment and Psychiatric Services.
  - CHILDREN Children’s Therapy and Community Support, Therapeutic Daycare Services.
  - PARENTS Family Therapy, Parenting Education, Childbirth Education and Pregnancy Support, Community Support, Education and Outreach.

- Supportive and Permanent Housing is provided at four locations with the following supportive services: Housing Case Management, Educational, Vocational and Employment Support and Life Skills.

- Peace for Kids Child Development Center’s mission is to provide a comprehensive early childhood and educational program for the children of Queen of Peace Center and the surrounding community. PFK facilitates the cognitive, physical and social emotional development of each individual child.

- The Adolescent Resource Center is an early intervention and prevention program for St. Louis County youth between the ages of 12-19 who are at risk of developing substance use and/or mental health disorders. Services include the following: Screenings and Assessments, Interactive Prevention Education Workshops, Cognitive Behavioral Therapy, Motivational Enhancement Therapy, Brief Solution-Focused Therapy and Art Therapy.
MISSION STATEMENT
To deliver mental health and substance use disorder services to help individuals and families achieve healthier and more productive lives.

Founded in 1969, ReDiscover has a proven track record of providing innovative, comprehensive and compassionate care to men, women and children whose lives have been affected by mental illness or substance use disorders.

Services are provided to persons who are indigent, uninsured or under insured as well as individuals with private payer sources. Individuals are targeted for comprehensive treatment to maximize their ability to live independent, productive lives. Service provision includes: individual, group and family therapy; psychiatric evaluation and rehabilitation; medication management; crisis intervention, stabilization and respite; acute day treatment; health care assessment and care coordination; and on-site pharmacy services.

With a staff of over 550 committed and passionate professionals, ReDiscover serves more than 4,000 individuals daily at our 14 service sites in Kansas City, South Kansas City, Raytown, Grandview, and Lee’s Summit. On site pharmacies are located at the Lee’s Summit and South Kansas City locations. ReDiscover’s programs include:

**Services for Adults, Children and Families** – Provides therapy, psychiatric evaluation, medication management and case management services.

**Psychiatric Rehabilitation Services** – Provides case management, medication management and support for adults struggling with the challenges of severe mental illness such as bipolar disorder, major depression or schizophrenia.

**Partial Hospital Services** – Acute Day Treatment for adults in mental health crisis. Designed to help clients recompensate as quickly as possible with the help of medication, medication management, individual therapy, group therapy, case management and education.

**Children’s Services** – For children with serious emotional disorders, provides intensive in-home counseling, case management services and support. Assessment, counseling and crisis prevention/intervention are provided in the schools for students at all grade levels.

**Transitional Living** – Life skills training for young adults (18-24) who have a mental illness, in a supervised apartment setting.

**Substance Use Disorder Services** – For men and women over 18, this program provides substance use disorder treatment in a residential setting or outpatient program, staffed by treatment teams consisting of psychiatrists, nurses, counselors and mental health professionals. ReDiscover also contracts with the state of Missouri to provide these services to women on Missouri State Probation and Parole. For women with children, on site day-care is provided and children are able to live with their mothers in a residential setting while receiving treatment. For people diagnosed with an opioid treatment disorder ReDiscover provides medication assisted treatment at two dedicated clinics, plus adjunct treatment at other sites.

**Triage/Access Services** – All new ReDiscover clients are provided information, referral, screening and assessment, and short-term interventions. ReDiscover operates the Kansas City Assessment and Triage Center which takes referrals from the KC Police Department and approved ER’s. The center provides rapid access to triage, stabilization and linkage to community services for adults in a behavioral health crisis, as well as access to crisis respite for more long-term stabilization via our Thrive residential program.

**Hospital Diversion** – Intensive outreach services for those that frequent emergency rooms, with the intention to connect them to community behavioral health or other community services.

**Healthcare Home** – Provides physical care coordination for ReDiscover clients.

**Suicide Prevention** – Targeting youth and adults ages 10 and up to reduce suicides and suicide attempts by focusing on prevention and early intervention.
MISSION STATEMENT
Southeast Missouri Behavioral Health will positively impact the health and well-being of every life we touch.

Southeast Missouri Behavioral Health is a community based healthcare provider of substance abuse, mental health, integrated dual disorder and supportive residential substance abuse treatment services. The agency is certified by the Missouri Department of Mental Health, Division of Behavioral Health as a provider of Integrated Dual Disorder Treatment services and accredited through CARF International as a provider of Integrated Alcohol and Other Drug and Mental Health services at each of its locations. Accessing our services is very convenient with outpatient offices located throughout Southeast Missouri.

For more than 40 years, our staff has been committed to providing a variety of services to meet the ever changing needs of those we serve including:

- Assessment to determine service needs

- Healthy Children and Youth (HCY)
- Children First Program
- Drug and Alcohol Testing
- Community Education
- Prevention Resource Center
- Mental Health First Aid
- Drug Court
- DWI Court
- Bureau of Prisons Community Reentry Services
- U.S. Probation and Pretrial Services
- Community Supervision Center (CSC) services
- TeleHealth services
Swope Health Services (SHS), seeks to help develop self-empowered, healthy people in healthy communities by providing primary health care, outreach and behavioral health services throughout the greater Kansas City area. Annually, more than 41,000 patients are served through nine clinic and residential treatment locations. More than 90 percent of patients live below the poverty level.

SHS was originally named Model Cities Health Corporation (MCHC) in recognition of its source of seed money – the Johnson Administration’s Model Cities program. In 1969, MCHC opened a clinic in the basement of Metropolitan Baptist Church. Our chairman and his dedicated board saw the need to provide primary health services to those who fell through the cracks of the health care system – the working poor. That first year, with a budget of $100,000 and 20 employees, 2,000 patients were served. Many of our patients were often coming in with the same symptoms. In addition to medical problems, patients were exposed to substance use or physical abuse – all were impacted by the cycle of poverty. Staff understood that both symptoms AND causes would have to be addressed by determining what was going on in individuals’ homes and neighborhoods – if they hoped to ever break the cycles of poverty and abuse that carry on from one generation to the next. That’s how Swope Health Services’ holistic approach to health was conceived – embracing the total health and well-being of the individuals they served.

In 1980, a community mental health center was added so that the behavioral health issues that impacted the lives of the high-risk population the Health Center served could be addressed. Today, primary care and community behavioral health are housed under one roof at Swope Health Central and the preventive, holistic model that distinguishes Swope has blossomed into many new programs and outreach services designed to meet patients’ needs identified in the communities surrounding all our clinic locations. Today, our behavioral health department provides a comprehensive array of community-based, outpatient, residential and faith-based services by board certified psychiatrists, state licensed and certified clinicians, qualified mental health professionals, and qualified case management staff.

**Services include, but are not limited to:**

- Intake and assessment services
- Psychiatric evaluation and medication consultation services
- Primary care and behavioral health integration, to include disease management for adults and youth with serious mental illness
- Individual, group and family therapy for children and youth, adults and senior adults
- Certified play therapy for young children and youth psycho-educational groups
- Community psychiatric rehabilitation (CPR) for children/youth and adults
- Substance Use Treatment Services – social detox, residential support, intensive outpatient, outpatient services and SATOP (Substance Abuse Traffic Offenders Program)
- Forensic mental health services (Mental Health Court)
- Telehealth
- MAT Services
TRI-COUNTY MENTAL HEALTH SERVICES, INC.

3100 NE 83rd St., Suite 1001 | Kansas City, MO 64119 | 816.468.0400 | Crisis Line: 888.279.8188 | Service Area: Clay, Platte, Ray | www.tri-countymhs.org

MISSION STATEMENT
Tri-County’s mission is to provide recovery-oriented mental health, substance use and prevention services that are quality assured and responsive to consumer needs with increased attention to the whole person.

Established in 1990 as a freestanding community mental health center and Administrative Agent of the Missouri Department of Mental Health, Tri-County Mental Health Services, provides prevention and recovery-oriented mental health and substance use treatment services that are quality assured and consumer-centered. We serve the Northland Community—Clay, Platte and Ray counties.

Our primary location is in the Northland Human Services Building on the Maple Woods Community College campus. We have satellite offices in Clay, Platte, and Ray counties, in addition to a network of contract providers throughout the Tri-County service area. We strive to bring a full range of confidential and effective behavioral health services to all residents of Clay, Platte, and Ray counties.

Tri-County believes in creating a Trauma Informed Culture and building resiliency of its staff and the people it serves. To that end, its Core Beliefs are:

• We believe in a safe environment for all our staff and consumers;
• We believe hope nurtures vitality that keeps life and living meaningful;
• We believe in empowering staff to build resilience by reducing emotional distress and creating a compassionate culture.

Tri-County treats approximately 8,000 individuals each year through a combination of caring staff and our unique contract provider network that includes agency-based clinical staff and community-based psychologists, social workers, psychiatrists, case managers, and volunteers. Some service highlights are:

• More than 60% of Tri-County consumers have a serious mental illness. They learn to effectively manage their mental disorders; obtain safe, affordable housing while achieving a satisfying social and occupational life.
• Outpatient programs provide individual, family, and group counseling to treat a full array of behavioral health problems.
• Tri-County provides Clay, Platte, and Ray County Drug Courts and the Platte County DWI Court with treatment services that allow first-time offenders to participate in intensive rehabilitation. Substance use treatment services are provided both for adults and adolescents.
• Our Prevention and Employment Services program are recognized statewide and nationally as a leading force in the prevention of alcohol and substance use among teens and young adults, and in securing competitive employment for adults with serious mental illness.

Tri-County also has a very active prevention team that engages over 500 volunteers every year in our local communities to support the health and well-being of adolescents and young adults. In any given year Tri-County’s Prevention Team will conduct over 530 activities in the community with more than 25,000 face-to-face contacts. Activities include suicide prevention programs and activities promoting healthy behaviors, and messaging and education to create safer and healthier environments for youth and young adults.
TRUMAN MEDICAL CENTER BEHAVIORAL HEALTH

300 W. 19th Terrace | Kansas City, MO 64108 | 816.404.5700 | Crisis Line: 888.279.8188 | Service Area: Jackson County | www.trumed.org

MISSION STATEMENT
Is to provide mental health and substance abuse services that embrace wellness.

For more than 40 years, Truman Medical Center Behavioral Health has been a leader in providing mental health and substance use services to the people of Kansas City and Eastern Jackson County. Driven by a mission of providing services that promote wellness, TMC Behavioral Health recognizes that emotional well-being and physical health are closely connected. Services address the many and varied issues through the continuum of life – from birth to bereavement – that impact the health and happiness of individuals and families.

Helping People Deal with Life’s Problems

Mental health treatment provided by TMC Behavioral Health is based on the unique strengths, needs and experiences of each individual to whom services are provided.

TMC Behavioral Health delivers services at six community outreach clinics in the Kansas City metropolitan area as well as at our main Hospital Hill Clinic near downtown Kansas City. Our unique role as a hospital-based mental health center supports a whole-person, integrated health model of service delivery that is increasingly the standard of best practice for healthcare. Whether the client is a child struggling with attention-related difficulty or an older adult grieving the loss of independent functioning, TMC Behavioral Health has services that can help improve overall quality of life:

• Mental health crisis and outreach services provided 24 hours a day, seven days a week.
• Mental health assessment to identify each person’s needs and services that can help.
• Therapy and counseling with specialized services for children, young adults, families, and older adults to help them cope with their unique life circumstances.
• Inpatient mental health treatment to assist adults in getting mental health symptoms under control and minimize disruption to their lives.
• Occupational therapy to help persons regain, develop, or master everyday skills in order to live independent, productive, and satisfying lives.
• Physician and medication services when these can help manage symptoms of mental illness.
• Rehabilitation and employment services to help persons with serious mental illnesses build supportive relationships, social and leisure interests, and get jobs in the community.

TMC Behavioral Health’s strong commitment to providing access to quality services for our diverse community, regardless of their ability to pay, has resulted in a number of initiatives that take mental health treatment into neighborhoods and to diverse and historically under served populations.
ADAPT OF MISSOURI

2301 Hampton | St. Louis, MO 63139 | 888.657.3201 | Crisis Line: 314.322.2434 | Service Area: St. Louis City and County | http://www.adaptusa.com/service-locations/missouri/

MISSION STATEMENT
ADAPT’s mission is to provide high quality integrated health services using evidence based practices for persons with severe and persistent mental illness working toward recovery and wellness carried out with hope, dignity and respect.

Adapt of Missouri provides comprehensive health services for adults living with severe and persistent psychiatric disabilities in the St. Louis community.

Adapt of Missouri’s Community Psychiatric Rehabilitation Center programs are client-centered and based on a psychiatric rehabilitation model in which each individual is viewed in a holistic manner. A range of services is available to the persons served, including community support, psychosocial rehabilitation through the Hampton Club, psychiatry, individual therapy, family psychoeducation, and peer support. Services focus on empowerment, maximizing community independence, development of support systems, improving quality of life, education of health care issues, and acquisition of skills. Each individual’s biopsychosocial needs are assessed, and the assessment guides the development of Individual Recovery Plans. Services are provided at Adapt of Missouri, The Hampton Club and in the community.

Adapt of Missouri also provides services to special populations such as individuals adjudicated Not Guilty by Reason of Mental Defect (NGRI). This involves providing a range of mental and physical health services to individuals who are on conditional releases from state-operated facilities. The services they receive are typically identified in their conditions for release and incorporated into their individual recovery plans. The program promotes success and independence in the community for individuals who have spent years in state psychiatric rehabilitation facilities.

Adapt of Missouri assertively advocates for the clients served, their families, and policy issues related to all Individuals with mental illnesses. Adapt of Missouri has an advocacy team that leads efforts to empower clients to advocate for themselves, to reduce stigma related to mental illness, and to encourage support and advocacy from others on a variety of systemic issues related to health care and social issues.
MISSION STATEMENT

Comprehensive Health Systems, Inc. (CHS) was established in 1993 to provide additional adult comprehensive psychosocial rehabilitation services in the Hannibal and Fulton communities and surrounding areas. While we are a relatively small organization with approximately 40 employees, we have grown to include community support, psycho-social rehabilitation, Health Care Home, and Integrated Treatment for Co-Occurring Disorders. Hannibal is our administrative and primary program site for CHS. CHS became a member of the Missouri Coalition for Behavioral Healthcare in 2012. Since 2012, CHS has been CARF accredited and has received a three-year accreditation at each review. Comprehensive Health Systems, Inc., is proud of the longevity of many of our staff, which includes 25% of employees who have been with the agency for more than 10 years. It is our goal to create an organization that individuals are proud to be employed and encourages staff development.

Comprehensive Health Systems, Inc., (CHS) was established in 1993 to provide additional adult comprehensive psychosocial rehabilitation services in the Hannibal and Fulton communities and surrounding areas. While we are a relatively small organization with 31 full and part-time staff, we have grown beyond providing the basic services of psychiatric care, case management, and a day program to include integrated dual diagnosis treatment and a healthcare home. Hannibal is the administrative and primary program site for CHS. We moved into our brand-new building in New London in May 2005.

CHS became a member of the Missouri Coalition for Community Behavioral Healthcare in July 2012. Prior to that time, CHS was involved in the Missouri Psychosocial Rehabilitation Association until it became a part of the Coalition. CHS is also a founding member of the Northeast Missouri Mental Health Coalition in Hannibal, an organization of community organizations that struggle to address the mental health needs of the community. The coalition includes Hannibal Police Department, Hannibal Regional Hospital, RCF managers, other law enforcement and substance use organizations, as well as the other CPR providers in Hannibal: Preferred Family Health and Mark Twain Behavioral Health.

In an ongoing effort to meet the needs of our consumers, CHS developed an integrated dual diagnosis treatment service “from scratch,” having not been a recipient of a grant to develop this program. This additional service has provided CHS consumers with increased success in addressing their substance use concerns.

CHS became CARF accredited for the first time in February 2012, earning a three-year certification. This process was both a learning experience and an opportunity to recognize the quality of our clinical services, with no recommendations from the CARF reviewers regarding our service delivery.

Comprehensive Health Systems, Inc., is proud of the longevity of many of our staff, including five employees with over ten years’ employment at CHS. It is our goal to create an organization for which staff are proud to work and to provide the kind of environment that encourages staff development, including promoting from within.

The National Council for Behavioral Health is the unifying voice of America’s mental health and addictions treatment organizations. Together with 2,800 member organizations, serving 10 million adults, children and families living with mental illnesses and addictions, the National Council is committed to all Americans having access to comprehensive, high-quality care that affords every opportunity for recovery. The National Council was instrumental in bringing Mental Health First Aid to the USA and more than 600,000 individuals have been trained. In 2014, the National Council merged with the State Associations of Addiction Services (SAAS).

A not-for-profit 501(c)(3) association, the National Council for Behavioral Health’s mission is to advance our members’ ability to deliver integrated healthcare.

The National Council advocates for policies that ensure people who have mental health and substance use problems can access comprehensive healthcare services. We also offer state-of-the-science education and practice improvement consulting and resources to ensure mental health and addiction services are efficient and effective.

A Healthcare Home is an innovative, care coordination model for the delivery of health care services that is customized to meet the specific needs of low-income Missourians with chronic health conditions, serious mental illnesses and substance use disorders. Missouri was the first state in the country to implement Healthcare Homes.

Over the first 5 years, CMHC Healthcare Homes produced a net savings of $127.5 million!

MISSOURI CRISIS INTERVENTION TEAM (MO CIT) INITIATIVE

This program guides individuals to appropriate mental health services and offers support instead of sending them directly to the criminal justice system. The 40-hour training covers mental illness, crisis response, active listening, tactical communication/de-escalation and mental health law. CIT officers learn basic assessment skills for handling situations involving individuals in mental crisis and are provided with knowledge of local behavioral health services. CIT serves as both a jail diversion as well as a means to mental health assistance. CIT is most effective when law enforcement, mental health providers, individuals living with mental illness and family and community leaders work together.

Visit us online at, www.missouricit.org for more information regarding the Crisis Intervention Team.

More than 9,605 Missouri Law Enforcement Trained in Crisis Intervention

Outcomes of Crisis Intervention Teams

- Increases officer/citizen safety
- Decreases police liability and litigation
- Extends officers’ skills
- Increases on-scene expertise
- Reduces the time officers spend at hospital emergency departments
- Increases officer/community confidence
- Increases cooperation between criminal justice and mental health systems
- Establishes responsibility and accountability and increases professionalism
- Decreases arrest rates
- Reduces recidivism
